Introduction

Background and Justification

The Rana Plaza Building collapse in Bangladesh – the worst ever disaster in the world's industrial history—led to numerous death and survivors with injuries. The eight storied building, which housed five ready-made garments factories, a bank and several shops collapsed in Savar, Dhaka, on 24th April, 2015. The accident killing 1136 people, missing around 379 people and leaving thousands more injured. Approximately 4000 families have been affected directly and indirectly by this industrial disaster. Most of the families lost their only earning member. A number of survivors are still struggling, suffering from physical problems and psychological trauma and are in under treatment. The survivors, who recovered from the physical and psychological sufferings, hardly got job as employers didn't make any preferential treatment in recruiting them. Such situations pressed the victims into immense financial hardship. The incident of Rana Plaza, therefore, demanded an immediate and long term responses to help the victims and their vulnerable families.

Many national and international organizations as well as government have come forward to help the injured workers and deceased/missing family members. Meanwhile, majority of the injured workers and the dependents of deceased/missing workers have received financial assistance and compensation to rebuild their lives from different sources including Prime Minister Relief and Welfare Fund (PM Fund) and the Rana Plaza Donors' Trust Fund. The compensation has been processed by Rana Plaza Coordination

Committee (RPCC) composed of representatives of the Government, the garment industry both locally and the internationally, trade unions and nongovernment organizations. Based on ILO convention 121 and as a neutral Chair of RPCC, the ILO has facilitated the arrangement of compensation payment to the victims, their families and dependents.

In the process of disbursing compensation as well as following the compensation payment, numerous challenges of utilizing the compensation amount faced by the family members of deceased workers and survivors have come to the fore. The family members of deceased workers and survivors faced pressure from the peers, family members and also from the society to make unintended uses of the amount. For example; husband is giving pressure to invest money in business or family members are forcing to provide money for land purchasing or construct building. Young female award recipients are allured by section of relatives and families for new marital relationships. Few award recipients have said to have utilized their compensation money in the unproductive and losing sectors as they hardly have good ideas of productive investment. The facts reveal that after receiving award, the beneficiaries are in further vulnerability. The assessment of vulnerability of the family members of deceased workers and survivors, and attendant career counseling has thus been felt need in view to know the actual situation of beneficiaries after receiving award, and for building confidence to identify future pathways and utilize the compensation award properly.

Project Objectives

In this backdrop, to protect and promote livelihood security of Rana Plaza victims, the ILO has adopted a project— "Vulnerability Assessment and After Award Services". The objective of the project is to protect and promote workers' economic rights and livelihood security by providing support to the beneficiaries in attaining sustainable employment and creating a culture of return to work through vulnerability assessment and career counseling. The specific objective of the project is to (a) conduct vulnerability assessment using vulnerability tool and questionnaire developed to understand the situation of the survivors and the family members of deceased workers after receiving award; (b) provide information about financial opportunities like fixed deposit, sanchaypatro (savings certificate from Bank) by financial counseling; and (c) provide relevant and necessary information about re-employment, selfemployment and proper utilization of award by career counseling.

BILS Programme Objectives

Under this project Bangladesh Institute of Labour Studies-BILS, in association with the International Labour Organization (ILO) and the RPCC, has organized post award counseling for the Rana Plaza disaster survivors and for the family members of deceased workers. The target groups of 'Vulnerability Assessment and After Award Services' were the dependent family members of deceased and missing workers, and the injured workers/ survivors who are the direct beneficiaries or received compensation from trust fund.

BILS activities facilitated IOM by providing data collectors in conducting vulnerably assessment of Rana Plaza victims and provided direct counseling to ensure livelihood security of the victims of Rana Plaza disaster by providing support in taking right decision for proper utilization of compensation, attaining sustainable employment and creating a culture of return to work. The specific objectives of the counseling were to (a) know the situation of the survivors and the family members of deceased and missing workers after receiving awards; (b) provide information about financial opportunities like fixed deposit, bank savings) through financial counseling; and (c) provide relevant and necessary information about re-employment, selfemployment and proper utilization of award by carrier counseling.

Report Outline

This report is presented in three core sections. The following section details out the BILS organized programme modalities and activities carried out during four phases of the programme from 28 October 2014 to 11 December 2015. The third section provides an analysis of current situation of victims. The fourth section detail out the support needed. A conclusion and way forward is drawn in the final section. The person specific requirement of supports are provided in annex A and appendix A.

Program Modalities and Activities

For successful completion and setting out the program modalities and activities of 'Vulnerability Assessment and After Award Services for Rana Plaza Workers', a number of meetings was held in different time at the BILS and IOM office with the participation of representatives from ILO, BILS, ActionAid Bangladesh, Ranaplaza Coordination Cell (RPCC), and Ganoshastho Kendro (GK).

The program was carried out in total four phases from 28 October 2014 to 11 December 2015. The participants of first and second phases were mainly family members of deceased and missing workers, while the participants of third and fourth phases were both the survivors and the family members of deceased and missing workers. A two day workshop with each of five batches was held in the first phase. In the second, third and fourth phases the beneficiaries were called in 5, 8 and 7 batches respectively. A day workshop with each batch was held in the last three phases. Total 1407 survivors and 948 families were called in different phases to complete vulnerability assessment and counseling (Table-2.1).

The RPCC had communicated and invited the beneficiaries and the

Ganashastha Kendra (GK) arranged accommodation and food and ensured other administrative supports to accomplish the project. The program was held at PHA Bhaban, Gonoshastho Kendra (GK), Dhaka. This section highlights to the overall workshop modalities and BILS activities carried out in four phases of the project.

Workshop Modalities

Inauguration

In the inaugural session the representatives of the host organizations e.g. ILO, Bangladesh Institute of Labour Studies-BILS, ActionAid Bangladesh, IOM and RPCC briefed the objectives of calling them in a selected place and expressed their compassion to the participants for the unexpected incidents, their sufferings and losing their nearest. Information

Table-2.1 Programme Phase wise Invited Beneficiaries

Phase	Date	Total	Number of Beneficiaries	
		Batch	Survivors	Deceased Families Members
First	15 November - 30 November, 2014	5	-	384 (1159 family Members)
Second	17 April - 27 April, 2015	5	-	252 (family members)
Third	11 October - 20 October, 2015	8	673	244
Fourth	30 November - 11 December	7	734	68
Total		25	1407	948

provided to the participants that almost all the survivors and families of deceased and missing workers received their granted award/compensation. Therefore, the claimants/participants were requested to utilize the received compensation in the proper way. The modalities and activities of the day long workshop however briefed to them in this session.

Experience sharing

In all the phases some participants (from both the injured workers and deceased and missing families) were called to share their experience like; their current situation, how and where they utilize their compensation, whether the investment benefited to them or not, whether they faced any difficulties from their family, relatives or society after receiving award etc. In this session at first the deceased workers' members expressed their sadness for their deceased nearest members, while the injured workers shared their sufferings due to injury and lack of work as well as financial crisis. Then they (both the family members of deceased and missing workers and survivors) informed that in what purpose they expend or utilized their award

From the experience of participants it is observed that some beneficiaries spent/ used their award in unproductive sector such as arranged wedding of daughter, construct building, but some of them utilized their award in proper way. This session was arranged so that the other beneficiaries could realize the real situation and could make decision what type of investment would be benefited to them.

Group formation

In this session the total participants were divided into two groups of equal

size (group A and group B). Up to lunch break claimants of group 'A' were called by IOM for data collection for vulnerability assessment while claimants of group 'B' were called by BILS for counseling. After that the claimants of group 'B' were called by IOM for data collection and claimants of group 'A' were called by BILS for counseling.

Data collection for vulnerability assessment by IOM

Total 10 data collectors were involved in collecting information from the claimants in different phases. Each time 10 to 15 claimants were called for data collection for vulnerability assessment, of whom 5 to 10 claimants were sit for providing interview with data collectors and the others were waiting for the next interview. Among the deceased and missing workers' family members only the main claimants were participated in the interview for vulnerability assessment.

Region Wise Group Counseling

Region wise group counselling was conducted mainly with the families of deceased and missing workers. In this session, baneficiaries sat region wise in four or five groups. Each group engaged 3 to 6 families from same region. Each family of the regional group shared their compensation utilaztion experiences with other families of that

resion. Through this session benefisheries became concsious what tipe of work or investment would be suitable for this region.

Individual Counseling

Individual counseling session were held with each deceased worker's family members and injured workers. Total 14 counselors were involved in counseling. One counselor will engage to counsl one family or a survivor. Therefore 14 counselors counsel to 14 claimants at a time. Claimant and their family members shared their family situation, compensation utilization plan, compensations implementation experience and career plan in individual counseling session. In this session counselors tried to identify their need and based on this provided better options to them in the safe and benefited way.

BILS Programme Activities

Facilitate IOM in conducting vulnerability assessment

The International Organization of Migration (IOM) conducted vulnerability assessment to understand the real situation of the survivors and the family members of deceased and missing workers after receiving award under the current project. BILS facilitated the process by providing IOM with data collectors. BILS provided 5 to 10 data collectors to IOM in different phases to obtain the desired information from the claimants through in-depth interview by using structured questionnaire. BILS and IOM gave orientation training to the data collectors about the methods and techniques of data collection, coding and processing.

Table 2.2 Phase wise attended programme beneficiaries

Phase	Date	Total	Number of Beneficiaries	
		Batch	Survivors	Deceased Families Members
First	15 November - 30 November, 2014	5	-	286 (852 family Members)
Second	17 April - 27 April, 2015	5	-	245 (786 family members)-
Third	11 October - 20 October, 2015	8	581	99 (36o family members)
Fourth	30 November - 11 December	7	586	40 (167 family members)
Total		25	1127	670 (2165 family members)

Family, social, financial and career counseling to the beneficiaries for proper utilization of award and capacity building of beneficiaries Family, social, financial and career counseling were provided to award recipients for ensuring livelihood security and proper utilization of award. The counsellors provided information about financial opportunities and reemployment. Counseling has been provided to total 1127 injured workers and 670 families (2165 family members) of deceased and missing workers (for detail see the Table-2.2). Total 15 counselors provided counseling to the beneficiaries.

Counselor selection

A group of 15 counselors/volunteers selected for conducting counseling to the Rana Plaza survivors and deceased and missing workers' family members. The counselors and volunteers had been selected from BILS interns and SAFE volunteers and who had previous experience to work with Rana Plaza Victims. Some of them were well trained from the Fire Service on 'Safety First' and worked as rescuer during the Rana Plaza disaster. Some of them were also engaged in various rehabilitation & reintegration program of Rana Plaza victims at Savar, Dhaka through NGO's and development organization.

Counseling Orientation

Volunteer's orientation on basic counseling techniques and data collection for 'Vulnerability Assessment and After Award Services' held on 14 November, 2014 at BILS Office, Dhaka. A total of 25 participants attended the training workshop. The objective of the orientation program was to build counselors' and data collectors'

confidence in data collection and counseling. Through the training they were informed about program modalities and objectives, workshop plan, and trained how they would provide family, social, financial, and career counseling and collect information from the beneficiaries for future action.

For ensuring the quality of counseling, two days prior to each program phase, the counselors/ volunteers were reoriented counseling and data collection techniques at the BILS office. The review meeting focused on some experience sharing with each other and generated the work-plan of coming phase work activities. This meeting also discussed the problem and difficulties faced by counselor and data collectors during counseling and how such kind of problem could be overcome.

Counseling

Need Identification

For providing proper counselling needs or requirements of the the servivors and the kin of deceased and missing workers of Rana Plaza were identified through discussion. From the discussion, the major needs identified are as follows –

- Phycsical and psychoogcal condition
- Family needs
- Family and social risk

- · Confilct of interest within the family
- Financial risk and needs
- Compensation utilization plans
- Compensation utilization experience
- Strategy taking by beneficiaries to combat risk and conflict
- Future plan of beneficiaries and their requirments

Counseling issues

Family and Social Counseling: Some families have become guardianless as they lost their only earning member of the family or only family earning member became disabled or unemployed. In this situation some family problem and social influence may increase the beneficiaries' vulnerabalities. Therefore, family and social counseling were conducted based on the following issues

- Insecurity/risk faced in family settings
- Social risk after receiving money
- Risk from local influential persons

Financial Counseling: Counselor tried to know where and how the beneficiaries have already invested their money and how they want to utilize their rest of the compensation money. To know that financial counseling conducted with family members and survivors. The financial counselling provided based on the following issues.

- a. Exsitng wealth and financial condition of family
- Land ownership description and other wealth (catle, irrigation equipments etc.)
- Average monthly income of the family
- Experience to use the ATM Card, Bkash, Mobile banking, Check book
- Regular Income, and access to credit
- b. Experience of financial management
- Involvement in the micro credit group

- Responsibilities in the group
- Sector idenitification for proper utilization of resources (Money,land,wealth compensation)

Livelihood / Career Counseling: The counseling was conducted for proper utilization of compensations and to invest money in the income generating sector. In this phase of councelling, counselor tried to know claiments' compensation utilization plan and future career plan. The counsellor collected informartion from the beneficiaries what kind of problem they were facing in making investment and in their search of employment opportunities. The counsellor provivded information and reccommended the best possible type of investment or deposit fruitful for them. They were also conselled on the means of overcoming current difficulties in their search of employment.

Current Situation of Victims and Required Support

Current Situation of Rana Plaza Victims

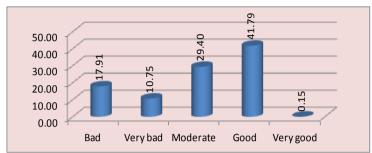

Situation of Deceased FamiliesFamily Condition

The evidence shows that most of the family members of deceased and missing workers have overcome the immediate shock of the personal and family loss. About 42 percent deceased family members' mental condition is claimed to be in good condition, despite the fact the absence of dear ones from their lives remain live and stressful. A significant number of participants nonetheless claimed that their mental condition is in the state of either bad (18%) or very bad (11%). Children and parents of deceased workers continue to suffer from trauma (Chart 3.1). Chart-3.2

At present most of the deceased families' dependent members condition is claimed to be almost satisfactory. After receiving awards they are able to run their family better. However few

families informed that they could not continue their dependents' education due to lack of money. Some of them also reported that they face difficulties due to sickness of their family members. Some also reported themselves as helpless as they lost only of their children or earning members (Chart 3.2).

Chart 3.1: Mental Condition of Deceased's Family Member

It is however found that after getting award/ compensation family conflict has been increased in many cases.

About 27 percent of the participants claimed that conflict has been increased in their family after receiving awards. It is due to receiving different amount of compensation, denying to give money to brothers or sisters or kin who did not get award (Chart 3.3).

Condition of Dependent Members (Multiple responses)

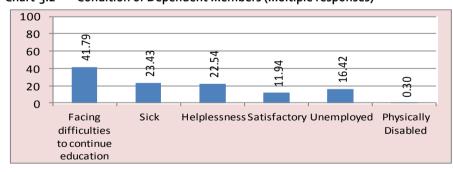

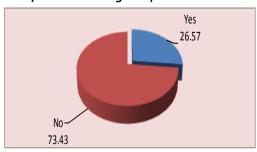

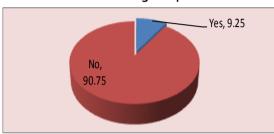

Chart-3.3 Whether conflict increased within family after receiving compensation

Social Condition

Almost all the participants of the 4th phase counseling said that they did not face any risk/ vulnerability from the society due to received award. Only 9percent claim to have faced added risks after receiving compensation (Chart 3.4).

Chart-3.4 Whether the beneficiaries face added risks after receiving compensation

Financial Condition Monthly Income

Around 43 percent claimants said that they earn less than taka 5000 per month where 22 percent reported about their monthly income between the range of Tk. 5000 to 8000. Only about 10 percent earn more than Tk 12000, which is basically total of several family members' income. About three percent claimants claimed that they do not have monthly income as they lost their only earning members during the

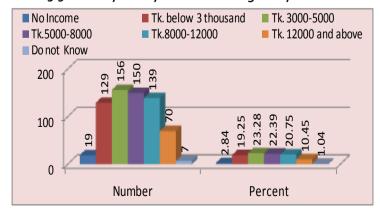

accident and do not have any member in their family who can earn. Their family is running mainly depending on the compensation money. Many of them try to run the family by using the interest of compensation money. Some families spent most of the compensation amount to run their family (Chart 3.5).

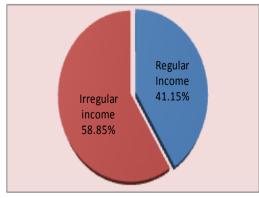

The participants who reported on having monthly income, majority of them however claimed that they do not have regular family income (59 percent). About 41 percent family informed that they have regular income (Chart 3.5).

Land Ownership and other Resources

During counseling about half of the deceased workers' family members informed that they have only homestead land and about 21 percent said they do not have any land property. They are mainly staying in the rented house or make-shift home in other's land. Few families however informed they have cultivable (5%), homestead and leased land or cultivable and homestead land (4%) (Chart 3.6 and 3.7).

Chart 3.5 Monthly Family Income and Regularity of Income

Loan

About 23 percent participants reported that they have family loan. They take the loan from different microcredit provider organization available at their locality like; Grameen Bank, Asha, Proshika. The participants who said about do not have loan some them informed that they paid loan after receiving compensation.

Financial Assistance or Compensation

During the counseling session near about one-third of the participants reported that they received Tk. less than 3 lacs as compensation. About 28 percent and 27 percent informed that they received Tk. 3 to 5 lacs and 5 to 10 lacs respectively. About 10 percent told they received TK. more than 10 lacs of which 2 percent received TK. 25 lacs and above (Chart 3.9). About the source of the receiving assistance they mentioned mainly the Prime Minister's Fund, BGMEA and some others agencies. They received majority of the amount through Bkash and Bank and a small part of the amount as cash.

Use of Financial Assistance

In the counseling session the participants were asked whether they spent their compensation/ assistance in non-productive way like arranging social program, repaying loan, buying smart phone, and building/ house construction or repair. Their responses revealed that besides savings and investments, a significant number of compensation recipients spent their money in the non- productive

Chart-3.6 Land Ownership by Deceased workers' Family

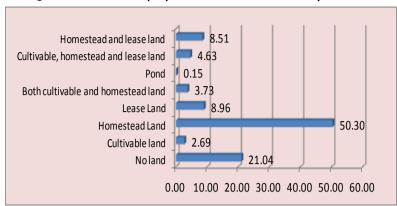

Chart-3.7 Availability of other Resources

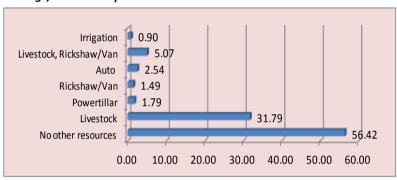

Chart - 3.8 Whether Beneficiaries Received Loans

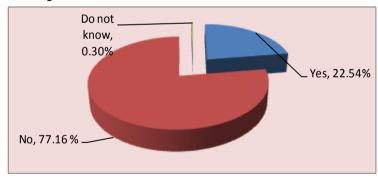

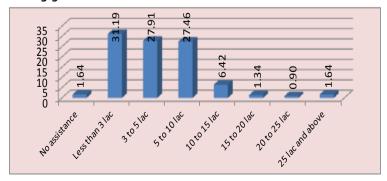

Chart-3.9 Received Financial Assistance

ways (55%). Out of total participants, about 57 percent of money recipients spent their money for social program like marriage ceremony, pray for deceased's soul (milad, mahfil), arranging funeral, and house building/ construction or repair. About 20 percent and 30 percent of money recipients used their money for repaying loans and fulfilling regular family needs (Chart-3.10)

Chart-3.13 Condition of Survivors' Family

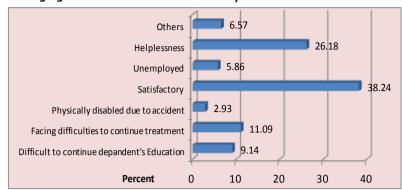

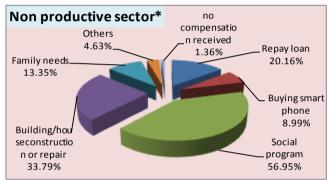

Chart- 3.10 Uses of Financial Assistance

*Multiple response acceptable

Situation of Survivors

Physical and Mental Condition of Survivors

Most of the survivors mentioned their physical and mental conditions are to be in the state of moderate. About 36 percent survivors' physical and mental conditions are reported as bad (Chart 3.10). About 23 percent survivors are still under treatment, and 69 percent need further treatment (Chart-3.11). Also see Annex A for a list of claimants and their needs of treatment.

Chart-3.11 Physical and Mental Condition of Survivors

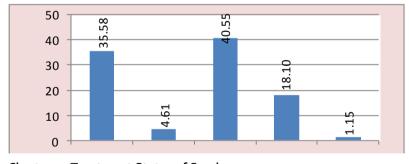

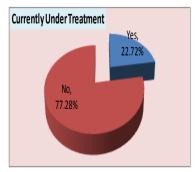

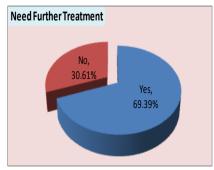

Chart-3.12 Treatment Status of Survivors

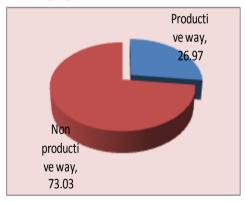

Family Condition

The family conditions of survivors are also not so good. Over one fourth of survivors claimed that they feel helpless as they are not physically fit. A number of survivors said that they are facing difficulties to continue their treatment (11 percent), and children' education (9 percent). About 38 percent survivors reported that their family condition is now satisfactory (Chart 3.13).

Financial Assistance or Compensation

During the counseling session it is observed that the survivors received less amount as compensation than the deceased family. Only about three percent survivors have received Tk. 5 lac or above as compensation. Majority of survivors have received Tk. one to three lac (Chart 3.14)-.

Chart-3.15 Use of Financial Assistance

About the source of the receiving assistance they mentioned to mainly Prime Minister's Fund, BGMEA and some others agency. Like deceased families they also received majority of the amount through Bkash and Bank and a little amount as cash.

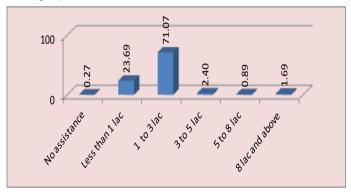

Regarding use of award/compensation, it is observed that near about three-fourth of survivors used their financial

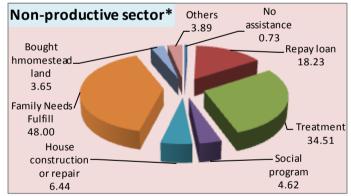

assistance in non-productive way which include mainly family needs fulfill (48 percent), repay loan (18 percent), and construction or repairing house (6 percent). A significant number of survivors spent their award for their treatment purpose (Chart-3.15).

Training and other Assistance

Out of total from 31 percent survivors participated in the counseling session confirms that they received training

Chart-3.14 Received Financial Assistance

*Multiple response acceptable

from different organizations. About types of training most of the training receivers (41%) mentioned that they have received grocery training followed by swing training (24 percent). Around 15 percent reported that they received livestock training (Chart- 3.16).

When the survivors (who received training) were asked whether the training have any impact to their

livelihood, around 59 percent participants thought that the training has played significant role in ensuring their livelihood security (chart 3.17). About 41 percent said that the training could not ensure their livelihood security (Chart 3.18).

Chart-3.16 Training Received by Survivors

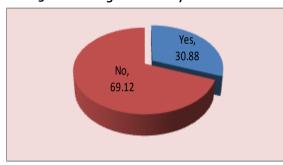

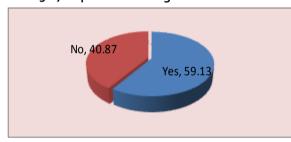

Chart-3.17 Impact of Training

Employment Status

A significant number of survivors (49 percent) are found unemployed during the counseling session (Chart-3.19). The survivors who are currently employed informed that they are engaged in small business (11 percent), garments

job (8 percent agriculture work (6 percent) and others job (9 percent) (Chart-3.20).

Future Plan of Award Recipient Future Career/investment Plan

Most of the deceased families (46 percent) invested or want to invest their awarded money in small business, and land purchase or cultivation. About 39 percent of them deposit their money in the Bank or Post Office (Table 3.1).

Chart-3.18 Types of Training Received

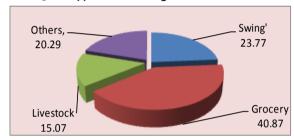

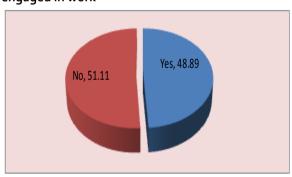

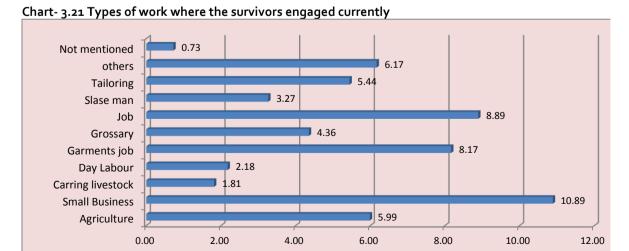

Chart-3.20 Whether the survivors currently engaged in work

The evidence shows that most of the survivors want to do something but are highly de-motivated to do garment job. They are moving towards small business (42 percent) like grocery, tailoring, mobile servicing, flexi load (cell phone recharge) etc. Some are planning for raising livestock (16 percent) and the rest of the survivors searching jobs other than garment industry (Table 3.2).

Required Support by Rana Plaza Victims

Family Support

In the counseling sessions it became evident that after getting award/ compensation family conflict has increased in many cases. It is due to receiving different amount of compensation, and denying money to brothers or sister or kin who did not get award.

The counsellors talked with the family members on the conflicting issues and also provided guidelines to resolve and manage such conflicts. At the end of the conversation, most families seemed happy as their misunderstanding had been reduced through attendance in the counseling sessions. Also, because they were happy to able to share their views/opinion publicly with outsiders. During family counseling majority of the survivors claimed to have required free treatment facilities, while a number of deceased workers' families required free treatment facilities for the elderly family members and deceased workers' children. Both the survivors and main claimants from deceased families required facilities to ensure their children's education. Recommendations provided to the beneficiaries in this case include—

- If found any family members are sick, recommended them to go to nearest goovernment hospital for better treatment.
- Comprehensive utilization of compensation money with consent and participation of family members.

- Minimize internal family conflict for safe keeping and productive utilization of awards amounts.
- Utilization of dependents compensation for their future welfare.
- Continuing prioritizing study and skill enhancement for children and adolescents.

Social support

It is found that the award recipients have faced some kind of risk and vulnerabilities in the societies. They really did not understand what steps they could take in this cases. They asked the counselor how they could overcome such risks and vulnerabilities. Through counseling they realized the numerous avenues and actions to overcome the risks and vulnerabilities raised from society. Counselors provided, amongst others, the following recommendations to combat the risks from society—

- Inform the Union Parishad and police also if needed.
- Do not give any loan to any one
- Due to the expectation of more compensation some claimants are staying at Savar, discouraged them to make such decision. The account holders' compensation will reach to their designated accounts wherever they stay.

_

Financial Support

Mainly survivors need financial support rather than the families of deceased or missing workers as they got more amount of compensation compared to survivors. Recommendation was made in this regard –

- Using of existing wealth in the income generating way
- Be acquainted to use the ATM card with the assistance of respective bank employees
- Repay loan installments and gradually
- Not to disclose compensation amount to others
- Deposit the compensation of dependents members in the government banks or post office up to the age of 18 years.

Career support

It is found that majority of the deceased family members required training (12 percent) for their unemployed family members followed by job (8 percent) (Chart-4.1). On the other hand, majority of survivors' required financial assistance (53 percent), while 26 percent are seeking financial and training both types of assistance followed by job (10 percent). The survivors are still suffering from different physical and mental barriers which make them dependent on assistance (Chart-4.2).

Recommendations for livelihood/career Counseling

- Invest in business as per previous experience
- Land mortgage must have written agreement

 Those who has no physical capabilities and families with less income earning capable family members are encouraged to deposit their compensation amount in banks or post office

Chart-4.1 Assistance required by Deceased Family members

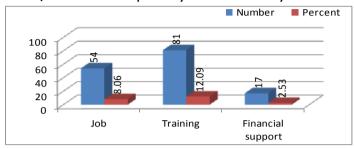

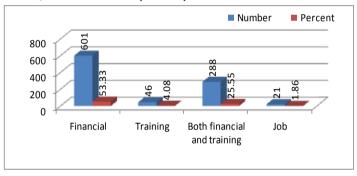

Chart-4.2 Assistance Required by Survivors

- Encouraged to fix deposit of compensation of dependent family members in the bank and post office for a specific time.
- Discourage to give loan any money to relatives and local somity, mohajan for high interest or benefit
- For getting actual information about compensation keep communication with Rana Plaza coordination Cell (RPCC)

Persons and Family Members Specific Required Support

Supports required by deceased workers' family members as well as injured workers/Survivors are provided in Annex B.

Conclusion and Way Forward

Under the project 'Vulnerability Assessment and After Award Services for Rana Plaza Victims' the counsellors tried to make the participants aware on the best use of awarded amount through counseling. The overall observation of the counseling sessions indicates the following.

- As the compensation amount received through different sources and different times, the total amount cannot be utilized in an integrated way.
- Many injured workers could not continue their treatment due to lack of financial capabilities and timely disbursement of the awards.
- The information on the proper treatment opportunity at their places, information about where they get the proper treatment and diagnosis facilities, and comprehensive services need to be provided.
- ◆ The present financial condition of deceased family members is much better than the injured workers or survivors. The injured workers received fewer amounts as compensation; also a substantial part of it was used for treatment. About half of the survivors are not capable to run their family in any way as they have no earning members and do not have regular income. They have to run their family by taking loan.

- A small number of survivors received training (sewing, grocery, livestock, mobile servicing etc.) from different sources. Maximum of the training receiver engaged themselves in small business like grocery shop, tailoring, livestock caring. About half of the survivors are employed but few of them are engaged in service/job. The participants are highly de-motivated to join in RMG industry, mainly interested to small business.
- ◆ As it has already been a long time after the disaster has occurred, various types of trauma are decreasing. But still there are significant numbers of injured workers who still fear of staying inside any building. They are willing to stay jobless for the rest of their lives rather than working in the garment sector;
- Many of the beneficiaries used their award in unproductive way like house construction, social program, religious charity etc.
- The temporary guardians of the deceased children misused the orphans' award as there was no legal binding for the temporary guardians about withdrawing the amount.
- About required assistance it is observed that majority of the survivors require financial assistance.

A significant number of survivors and deceased family members however required training. All the injured required free treatment facilities. Deceased workers' families require free treatment for oldest dependent and children. A noticeable number of deceased workers' family members and survivors require job opportunities for them.

After the successful completion of the counseling program, it has been learned that some of the family have carried effective measures through understanding their needs and securing savings as well. The main concern which have come in front is that the money they are awarded is already been spent by various unproductive work in an unplanned way (like repaying lone, buying land, organizing social events). In some of the cases the claimants were cheated by their own relatives/local goons. It has been caused mainly by breach of trust. As most of the claimants are not well educated to operate the bank account by their own, it was necessary to provide them orientation of operating a bank account along with the uses of ATM cards.

They need to be engaged into the work with their expertise for ensuring their livelihood security. Some of them need job as well as training for productive careers. The education of children and adolescent members of the family needs to ensure for their bright future (involvement of social welfare department, local govt. representative etc.). They really don't know how they will make their life good with this financial support. So they need more counseling to see their vision in their own eyes.

Still some claimants did not yet withdraw their compensation and some of them have spent it in the improper way due to the lack of awareness.

Some claimants are still expecting that they will further receive a lot of amounts. For proper utilization of compensations and raising awareness of the claimants in terms of sharing of information's like counseling programs should be continued.

It is necessary to develop area wise (District/Region) counselor for family counseling, the number of counselor should be determined depending on the status of the area (number of claimants) by which they can reach the service easily.

Annex A: Required Supports

Deceased Workers' family members requiring Supports
